2019-2020 School Year

Dear Parent/Guardian:

Welcome to another school year! Becton PIE (Partners in Education) is actively preparing for another exciting and productive school year.

PIE provides support to a variety of programs during the school year. We work to promote parent and community involvement in education. One of the many things we like to boast about is the Becton School Store. This is where students can purchase items every day after school. Through funds raised at the store, PIE offers help towards things like Project Graduation, Debate Team and a lot of other school functions where we can help offset the costs as well as offering scholarships to our high school seniors.

We are always looking for donations for the school store such as cases of water, gatorade, juice, soda, chips/popcorn, candy bars & granola bars which are in high demand for the kids after school. These snacks help the kids get to their after-school activities with some energy to keep them going! We are also looking for PIE members to help volunteer occasionally after school to help operate the school store. If interested, please feel free to contact us directly at PIE@Bectonhs.org.

Research has shown that academic achievement among students is higher in schools with active parent and teacher involvement so we would like you to be a part of PIE! **Membership Dues are only \$6.00** (Please make checks payable to Becton PIE or PayPal - PIE@Bectonhs.org).

Thank you for your support.

Sincerely,

Michele Romano
PIE President
